

CARS ARE RUINED

Twenty-Four, Sixteen New,
Damaged by Fire.

BUICK GARAGE DESTROYED

Several Cars, There on Storage,
Are a Total Loss.

GAS JET CAUSES BLAZE

Home of E. B. Omohundro on G
Street Slightly Damaged.
Other Small Fires.

Twenty-four automobiles, sixteen new and eight left to be repaired, were damaged by fire, some totally, in the repair shop of the Buick Motor Car Company, 1128 1/2 street northwest, yesterday afternoon about 4:15 o'clock. Fire Marshal Smith estimates the total amount of damage at \$22,900, \$5,000 being to the building.

Theodore S. Johnston, local manager, told the fire marshal that the company carried a blanket insurance of about \$100,000, which covers the proposition of the company, but not the automobiles, that had been left to be repaired. Mrs. Timothy Costello, owner of the building, had the property insured and, it is stated, she will construct a new building.

It is the opinion of Fire Marshal Nicholson that the backdraft of an engine caused a spark to ignite the vapor from gasoline spilled on the floor while an automobile was being cleaned. Firemen say that no explosions occurred during the progress of the fire, although the burning of a small blaze from time to time made it appear that such was the case. A big gasoline tank underground, outside the shop and connected with it by means of a pipe, was not reached by the flames, nor was it affected by the heat.

Employees Narrowly Escape.

Ward Angle, one of the fifteen men employed in the building, was near where the fire started. The blaze, it is said, reached him late in the afternoon, but anything unusual had happened. Lawrence Shannon, another employee, shouted a warning to him. Ben Ramey, a colored employee, narrowly escaped being seriously burned because the blaze ignited his clothing.

Shannon and others extinguished the blazing clothing before it had been badly burned. It seemed that the fire on the oil and grease soaked floor started in the direction of each of the several employees and it was impossible for them to remain long enough to save the cars which were there to be repaired were completely destroyed.

When Battalion Chief Henry and the first companies of the fire department reached the scene, employees and the automobiles were doing rescue work in the stockrooms. Three new cars that were in the repair shop were being completely destroyed.

Thirteen new cars that were in one of the stockrooms were almost completely ruined, while six new cars were taken from the building before the fire reached them. Battalion Chief Henry sent a second alarm as soon as he arrived, and Chief Wagner sent in a third alarm. The chief said he thought the fire was spreading, but that he had responded to the two alarms were sufficient to handle the fire, but he called for a third alarm, in case the fire was on hand in event of an explosion during damage.

Occupants Move From Houses.

Occupants of the two rows of houses in the alley became alarmed and many of them moved their effects, while persons residing in apartment houses and private residences nearby watched the progress of the flames. Spectators from all sections of the city were on hand to witness the fire.

Firemen had the blaze under control in a short time, and they succeeded in containing the fire to the rear portions of the building, preventing it from reaching the office rooms.

One of the fire wagons of the fire department collided with a street car while crossing at the intersection of Connecticut and M streets. The street car was damaged, the horse injured and a car window smashed.

A lighted gas jet, in contact with a lace curtain in a room on the third floor of the house of E. B. Omohundro, 2104 G street northwest, last night, caused a fire which caused a threatening blaze. The fire was quickly extinguished. About \$100 damage was done.

Nellie Carroll, colored, was painfully burned about her neck and shoulders last night about 6:30 o'clock when a fire broke out in her home, 721 block northwest. A lighted lamp dropped on the floor started the fire, which spread west between 11th and 12th streets last night about 6:30 o'clock. About \$10 damage was done.

To Represent This Country.

Col. Leo Feibiger, in command of the 4th Cavalry, in the Philippines, will represent the United States as military attaché at the coronation of the King of Siam, at Bangkok, December 1 to 8, next. Orders were issued by the War Department today to Maj. General Bell, commanding the forces in the Philippines, to have Col. Feibiger report to American Minister King before November 28 next.

Davidson Going to Nebraska.

Superintendent of Schools Davidson is to depart for Omaha, Neb., tomorrow night, where he will participate in the annual meeting of the Nebraska State Teachers' Association, of which he was president before coming to this city. Tuesday night he will speak before the Schoolmasters' Club and Friday afternoon at a meeting of the Story Tellers' League. Both of these organizations are affiliated with the Nebraska Teachers' Association.

ENTERS ON NEW TRIP.

Waldemar Lindgren, Chief Geologist of Geological Survey, Takes Charge.

Waldemar Lindgren, Chief Geologist of Geological Survey, Takes Charge.

The total number of such lodgers last night at police headquarters was ten. All of them declared they were working their way to the south. They left the station this morning and doubtless many are already on the road.

One tramp answering to the name of Robert Lawrence was begging on the streets last night and was arrested by Policeman Garvey. In the police court this morning Lawrence was fined \$5, and in default of the fine he will spend the next twenty days as a guest at the city jail.

Last night citizens reported that there was a large influx of the "weary willies," as they are called, and they were engaged in seeking alms and food. The police will arrest all who are caught begging within the city limits.

Girl Students Sing and Dance While Firemen Subdue Flames.

BOSTON, November 4.—While firemen were in the act of extinguishing a fire in the kitchen of the Boston Students' Union clubhouse on St. Stephen street, early today, the twenty-two girl students assembled in the reception room and played the piano, sang and danced.

Mrs. Catherine Osborn, director of the clubhouse; twenty-two girl students and twelve maids are residents of the union. Before daylight Miss Maud Gesmer, Portland, Ore., the twenty-two girl students assembled in the reception room and played the piano, sang and danced.
